

KEEP YOUR CAT HEALTHY FOR LESS with our monthly payment plan

WHY DOES YOUR CAT NEED PREVENTIVE CARE?

Regular preventive care is essential for your adult cat's continued health. Our care plan saves you money on the total cost of recommended preventive care and treatments. Best of all, this plan features budget-friendly monthly payments - making it easy to manage your cat's healthcare costs.

Cats are really good at hiding illness

It's a common misconception that cats don't get sick. In fact, cats are susceptible to many forms of disease - regardless of whether they live indoors or outdoors. Regular veterinary care can help stop illnesses before they happen.

Prevention is the key to better health

Preventive care can improve your adult cat's quality of life and help add more healthy years. It's essential for detecting diseases early on, before they become more serious - and more expensive.

Our annual care plans make budgeting easy; you pay nine simple, monthly payments for a year of preventive care.

This wellness package is for preventive care services only and does not include services for medical conditions, illnesses or emergencies. This is not insurance. Billing services for your care plan are provided through Covetrus CarePlans. If you have any questions regarding your pet's treatment, please contact your veterinarian. Program may change without notice. See terms and conditions of your care plan agreement for a summary of treatments.
